During this program, children in grades K-12 will be given the opportunity to (1) recognize and express their feelings, (2) build self-esteem through validation, (3) receive guidance as they adapt to the changes in their families, and (4) develop skills in dealing with loss that they may utilize throughout life.

Running concurrently with each children's session is an adult group created uniquely for parents and caregivers. This group is designed to help parents and caregivers have a better understanding of the changes going on with their children.
